- informative, nice environment, diversity, respect between the participants, the topics were interesting - connected which made understanding the topics - easier. Nice kick-off for further understanding in this topic

What do you dislike about this course?

- the room was like a sauna
- the reading materials were in English and German and wasn't convenient for international students.
some of them!

What are your suggestions for improving this course?

Stick to 20 mins per presentation and also give equal time to presenters for discussion. Let the students initiate questions more. Now it was more like the presenters and mainly the lecturers asking us. - good but students could also ask what they were interested in. As we're not professionals in this topic, more knowledge from the lecturer would make the process more productive.

What do you particularly like about this course?

How the topics could be group under headers (actor, patient, etc) and their relations to each other

The discussion of ideas & topics that are very interesting, diverse, unique, thought provoking and presentations that are very inter-linked ~~related~~ ^{and overlapped} topics and wider topics ~~these~~ ^{the} that are not easy to see linkages on. ~~Related~~ ^{summary of} giving each student the chance to speak and show their views and how it relates to ~~these~~ ^{the} topics.

The insights ~~was~~ gained was something I would not gain in my home university as there are different views from different countries and the professor was helpful ^{very well-informed and helpful} in my career.

What do you dislike about this course?

from an expert ~~there~~ ^{to the} or how the professor views the topic in relation to his ~~view~~ ^{to stimulate}

More in-depth analysis of security and cyber warfare. I did not really understand what I would get out of the lesson before the presentations as there was ~~nothing~~ ^{almost no} content taught in their ~~first~~ ^{lesson}

to stimulate discussions and provide new information.

What are your suggestions for improving this course?

~~Feedback on presentation~~ More discussion and "have" as ~~I~~ ^{insight} on how topics are linked as interdisciplinary knowledge

is very important to me.

it was ~~really~~ ^{helping} we form links in previously presented to be disconnected subject
